

ROJA J

Chennai, India | 9150543023 | rojanardhanan3023@gmail.com | [LinkedIn](#) | [GitHub](#)

Motivated B.Tech Information Technology graduate with a strong foundation in full-stack development and Artificial Intelligence, skilled at turning ideas into working applications. Eager to bring strong problem-solving ability and adaptability to a Software Development Engineer role and contribute to building scalable, impactful solutions.

TECHNICAL SKILLS

Programming Languages: Java, Python, JavaScript, PHP

Web Technologies: HTML, CSS, PugJS, Kotlin, Seaborn

Core Concepts: DBMS, Machine Learning, Computer Vision (OpenCV)

PROJECTS

Smart Assessment System for Student's Education | *PHP, MySQL*

- Built a platform to automate and enhance student performance evaluation, reducing manual grading effort for educators.
- Delivered actionable insights into student progress to support personalized learning and improve the overall assessment process.

InferaBoard AI | *HTML, JavaScript*

- Developed an AI-powered dashboard generation platform that converts raw data into interactive dashboards and actionable insights.
- Implemented data upload and automatic preprocessing with AI-based analysis to surface key trends.

VoxGuard AI | *Python*

- Built an AI-powered voice fraud detection system that identifies AI-generated and spoofed voices during phone calls.
- Analyzed speech features in real time and computed a trust score to flag suspicious calls.

Driver Drowsiness Detection | *Python, OpenCV, dlib*

- Created an AI-based safety system that monitors a driver's facial features and eye movements in real time using computer vision.
- Applied deep learning and facial landmark detection to identify fatigue and trigger timely alerts.

EduSpeak | *Python, Streamlit, Gemini AI*

- Built an AI-powered PDF summarizer and translator that extracts text from PDFs and generates concise summaries using Gemini AI.
- Added translation of summarized content into regional languages to improve accessibility.

INTERNSHIP EXPERIENCE

AI Intern — Retech Solutions

- Worked on real-world AI modules with focus on data preprocessing, model validation, and result testing.
- Developed scripts for automation and validation of ML model outputs.
- Collaborated with a team on quality checks and enhancement of AI performance metrics.

EDUCATION

B.Tech, Information Technology SRM Valliammai Engineering College CGPA: 9.22	2022 – 2026
Higher Secondary (12th) Neelan Matriculation Hr. Sec. School 95.5%	2021 – 2022
SSLC (10th) Neelan Matriculation Hr. Sec. School 99.4%	2019 – 2020

ACHIEVEMENTS & LEADERSHIP

- Secured 1st Prize (Technical Quiz) at Technical Symposium "SYNSARA 2024", Sai Ram Engineering College.
- Won 1st Place / Best Project Award at Mini Project Expo 2025, SRM VEC.
- Participated in Smart India Hackathon 2024 (Blockchain & Cybersecurity) and presented project work at an International Conference 2025, Velammal Engineering College.
- Serving as Limelight Editor, CSI Student Chapter; organized a technical event at the CSI Kancheepuram branch and led a mini-project team.

SOFT SKILLS & LANGUAGES

Soft Skills: Communication, Teamwork, Problem-Solving, Adaptability, Event Organization | Languages: English, Tamil
